

I. INTRODUCTION

Pour comprendre ce document, vous devez, au moins avoir lu préalablement le « Logical Quick Guide ».

II. OBJETS PLICI

A. CHARGER UN OBJET DU FRAMEWORK

Charger l'objet Plici qui gère les clients :

```
global $g_object_loader;
$object_tcustomer =& $g_object_loader->getTCustomerFo();
```

L'objet "objectLoader" permet de charger tous les objets du Framework de Plici. Il est toujours accessible en global.

ObjectLoader : /core/internal_components/common/leader/object_loader.class.php

Tous les objets sont dans /core/internal_components/

Documentation : <http://www.plici.net/doc/index.html>

Chaque objet à un périmètre d'intervention défini par l' « object loader », soit accessible en FO, soit en BO, soit dans les deux (common).

B. CREATION D'UN OBJET EN LIAISON AVEC UNE TABLE

Super Admin->Administration->Coding->Object Helper

Il génère le code PHP pour la classe utilisable en FO (seulement en lecture) et celle utilisable en BO (lecture/écriture).

C. METHODES SUR L'OBJECT_LOADER

1. FO

(/CORE/INTERNAL_COMPONENTS/FRONT_SITES/)

```
getBasicAuthent - basicauthent/basicauthent.class.php
getFloatWindow - float_window/float_window.class.php
getSearch - search/search.class.php
getTAddressFo - t_address/t_address_fo.class.php
getTAreaFo - t_area/t_area_fo.class.php
getTAreaHasTDeliveryCostsTypeFo - t_deliverycosts/t_area_has_t_deliverycosts_type_fo.class.php
getTAttributFo - t_attribut/t_attribut_fo.class.php
getTBillFo - t_bill/t_bill_fo.class.php
getTCountryFo - t_country/t_country_fo.class.php
```

```
getTCustomerFo - t_customer/t_customer_fo.class.php
getTDeliveryCostsTypeFo - t_deliverycosts/t_deliverycosts_type_fo.class.php
getTFormFieldFo - t_form/t_form_field_fo.class.php
getTFormFo - t_form/t_form_fo.class.php
getTLanguageFo - t_language/t_language_fo.class.php
getTLinkForGoogleFo - t_link_for_google/t_link_for_google_fo.class.php
getTModuleFo - t_module/t_module_fo.class.php
getTOrderDetailFo - t_order/t_orderdetail_fo.class.php
getTOrderFo - t_order/t_order_fo.class.php
getTOrderStatesFo - t_order/t_orderstates_fo.class.php
getTPageFo - t_page/t_page_fo.class.php
getTPaymentMethodFo - t_payment_method/t_payment_method_fo.class.php
getTPaymentMethodSpecialFo - t_payment_method/t_payment_method_special_fo.class.php
getTProductMasterFo - t_product/t_productmaster_fo.class.php
getTProductSlaveFo - t_product/t_productslave_fo.class.php
getTProductmodifierFo - t_product/t_productmodifier_fo.class.php
getTRssFo - t_rss/t_rss_fo.class.php
getTSearchedswordsFo - t_searchedswords/t_searchedswords_fo.class.php
getTSessionScope - scope/t_sessionscope_fo.class.php
getTSettingFo - t_setting/t_setting_fo.class.php
getTShoppingCartFo - t_shoppingcart/t_shoppingcart_fo.class.php
getTvaTypeFo - t_tvatype/t_tvatype_fo.class.php
getWeather - weather/weather.class.php
```

2. COMMUNES FO/BO

(/CORE/INTERNAL_COMPONENTS/COMMON/)

```
getBusinessInformation - t_text/t_businessinformation.class.php
getCustomerMail - mail/customer_mail.class.php
getDatabaseconnectSa - databaseconnect/databaseconnect.class.php
getDbIndexMail - mail/dbindex_mail.class.php
getDbIndexSupervision - database/dbindex_supervision.class.php
getFormat - format/format.class.php
getGraphRapid - graphrapid/graph_rapid.class.php
getInternalMail - mail/internal_mail.class.php
getModuleMail - mail/module_mail.class.php
getPageMail - mail/page_mail.class.php
getPliciTagLauncher - plicitag/plicitaglauncher.class.php
getPluginLoader - loader/plugin_loader.class.php
getSWPhpMyVisites - swphpmyvisites/swphpmyvisites.class.php
getSWTagPhpMyVisites - swphpmyvisites/swtagphpmyvisites.class.php
getSendMail - mail/send_mail.class.php
getTDesign - t_design/t_design.class.php
getTGlobalScopeVariable - scope/t_globalscope_variable.class.php
getTGraphic - t_graphic/t_graphic.class.php
```

getTInternalMail - internal_mail/internal_mail.class.php
getTLang - t_lang/t_lang.class.php
getTOrderTrackingNumber - t_order_tracking_number_connector/t_order_tracking_number_connector.class.php
getTPictureLogoBill - t_picture/t_picture_logobill.class.php
getTPictureLogoTop - t_picture/t_picture_logotop.class.php
getTPicturePage - t_picture/t_picture_t_page.class.php
getTPictureTLanguage - t_picture/t_picture_t_language.class.php
getTPictureTProductSlave - t_picture/t_picture_t_productslave.class.php
getTTextEmailBody - t_text/t_text_emailbody.class.php
getTTextFieldBbcode - t_text/t_text_field_bbcode.class.php
getTTextMetaDescription - t_text/t_text_metadescription.class.php
getTTextMetaKeyword - t_text/t_text_metakeyword.class.php
getTTextTitlePage - t_text/t_text_titlepage.class.php
getTestClass - t_design/t_design.class.php
getWebsiteInternalMail - mail/website_internal_mail.class.php

3. BO

(/CORE/INTERNAL_COMPONENTS/ADMIN_SITES/)

getEchoColorDialog - echocolorialog/echocolorialog.class.php
getExportPliciTagAdmin - plicitag/exportplicitagadmin.class.php
getImportPliciTagAdmin - plicitag/importplicitagadmin.class.php
getImportProductCSV - import_export/importproductcsv.class.php
getOrderStats - t_order/order_stats.class.php
getPliciTagAdmin - plicitag/plicitagadmin.class.php
getTAddress - t_address/t_address.class.php
getTArea - t_area/t_area.class.php
